

Pitfalls of Love

By ADELE GARRISON

"ROOM 1121" came the crisp interrogation over the telephone. "If I had not known my husband's voice so well, I never would have recognized it, and I knew that he was purposely disguising it, even though the chances of anyone overhearing him were remote."

"Yes," I answered briefly.

"Two minutes ago," he said, "Do you understand?"

"Yes."

"Then watch your step! Good-bye."

The receiver clicked, and as I put it up, I turned to meet the housekeeper's inquiring eyes.

"The woman came into her room two minutes ago," I said. "But she probably will not come out for some time. Her appointment isn't until after eleven o'clock."

The housekeeper looked at her wrist watch.

No Danger of Discovery

"And it took two minutes of time," she said. "But you needn't be afraid of her feeling you. We'll just nip from the stairway into the room next hers. Your husband is on the other side, and she won't have a chance either to see you walk or hear you talk, your two danger points until after you're drilled. And the chances of her seeing you at all until you're ready for inspection are a thousand to one."

"Do you think I'll be able to get the voice and gait right?" I asked her, for Dicky's open criticism and her implied one had disturbed my confidence in my own histrionic ability.

"Why, of course you will!" she said confidently. "You wouldn't need any drill at all, except that this woman knows you and you don't want her attention drawn to any little thing out of the way."

Halloran sprang to my defense a trifle belligerently.

YOUR HEALTH

By LOGAN CLENDENING, M. D.

Controls for Epilepsy

THE AMATEUR physiologist, chemist who sit around my gait, getting their exercises by watching their fellow members playing the 15th hole, are wont to crack their knuckles every once in a while and remark that they are full of acid.

They remain blissfully unconscious of the fact that an excess of acid in the body does not produce pain, but sleepiness. For instance, diabetic coma, when the patient is completely unconscious is a manifestation of acidosis.

As a matter of fact, it is very difficult to produce an acid condition of the blood. Nature likes the juices of living things to be neutral or slightly alkaline, and protects her alkalinity fiercely.

Acid Treatment for Epilepsy

A method of treating epilepsy is to keep, or attempt to keep, the blood slightly acid. This, while going so far as to produce sleep or coma, has a soothing effect on the brain and thus conduces to the prevention of attacks. The latest medicine for epilepsy is a form of glutamic acid which has this effect.

But for many years a standard and in some cases quite successful treatment for epilepsy was the ketogenic diet which by furnishing fat in large quantities to the reduction of sugar and starch in the diet, created an acid condition also.

In epilepsy the use of the diet reduces the number of convulsions sometimes completely. The symptoms of about 30 to 35 per cent of patients who follow the diet six months are controlled; the condition of another 30 to 40 per cent is improved; about 30 to 40 per cent of all patients are not benefited.

Best Result in Young

The best results are obtained in children and young adults who are just beginning to have seizures, and in whom the regularity of convulsions has not yet become a habit. Children stand the diet well. And they are far more faithful.

tions from 1720 who just checked in?" She paused, then finished "Thank you, Good-bye."

She turned back to me with a smile.

Wanted to Be Called

"Your hunch was right," she said. "She told the operator she didn't want to be disturbed by any call unless it came from one certain number; said she was going to sleep, and wanted to be called at half past ten on the dot."

With a sudden conviction flashing upon me, I put a question.

"Did she give you that certain number?" I asked.

"Yes," she answered. "And the operator commented that it was queer she didn't give a name. The number was—"

I caught my breath at the confirmation of my suspicion. The number was Miller's unlisted personal number at the Lansfield!

But to it than most adults. If they get some benefits, they are logical enough to keep on with what is good for them.

This is the reason in the story I have told before, but which will bear repeating, of a doctor friend of mine who was in the general store of a small town and bought some candy to give a group of youngsters who had gathered around. One of them refused and said, "Mister, I wouldn't eat a piece of that candy for \$50, because if I did, as sure as anything I'd have a fit before I got home." He had been on a ketogenic diet for two years.

Ketogenic Diet

A typical day's ketogenic diet

Breakfast: Fruit, 3 slices bacon, 1 egg, 1 slice bread, 2 squares butter, 1/2 glass 40 per cent cream.

Lunch: Meat, 5 per cent vegetables, butter, 1/2 glass 40 per cent cream, fruit dessert.

Dinner: Meats, vegetables, salad with dressing, 1 slice bread, 2 square butter, 1 glass half milk and half cream, cheese and crackers, fruit dessert.

The Stars Say—

By GENEVIEVE KEMBLE

For Wednesday, July 28

A RATHER difficult state of affairs is indicated by certain adverse aspects among important planets there may be a menace of fraud or imposition, with an undercurrent of treachery and intrigue. There may be overdone by shrewd attention to the logic and reasonableness of problems. All persons are advised to arise from too expansive and ambitious a view, as well as by looking at things from a more subtle and perhaps vindictive attitude. Nationalize any threatening circumstances, and protect the position, property and other real possessions. Support from influential persons is desired in the completion of difficulties.

Persons whose birthday it is may turn a difficult and perplexing state of affairs from an adverse and menacing one into something gratifying and productive. An obstinate and morbid mental attitude may prove harmful. But in all efforts at stabilizing the position and property, be alert to snare, schemes and other intricate, treacherous, backbiting eyes and ears open and work intelligently for cherished goals. A child born on this day, although inclined to be sensitive and possessive, yet may have sturdy qualities to win support from those in power.

Ohioans Wounded in

Action in Army List

By The Associated Press

SCHAFFNER'S

Timely Hit Keeps Brooklyn in 2nd

Dodgers Stop Pirates After Losing Three Games in Row to Them.

By TED MEIER
Associated Press Sports Writer

A last second reprieve, in the form of Augie Galan's grand slam single that tied the score followed by Arky Vaughan's grand slam home run with the bases full in the tenth, kept the Brooklyn Dodgers from tumbling into third place in the National League yesterday.

After walloping the Dodgers three in a row at Forbes field, the Pittsburgh Pirates, thanks to Vince DiMaggio's two homers, led, 5, going into the ninth. With two on and two out all that separated the Pirates from moving into second place was one strike. But with the count on him two and two Galan belted Max Butcher's next pitch for a single to score Dixie Walker from second base with the tying run.

This dramatic incident faded in the tenth when with three on and two out Vaughan scored a tremendous drive to deep center for an inside the park home off relief pitcher Bill Brandt and a 19 to 6 Brooklyn triumph. Butcher had been ranked after Billy Herman being asked to start the tenth.

Brooklyn remained 8½ games out of first place, however, as the pace-setting St. Louis Cardinals made it nine in a row by beating the Boston Braves, 6 to 3. In the American league the first place New York Yankees made only three hits off Jake Wade, but beat the Chicago White Sox, 5 to 2. The victory stretched the Yanks' lead to eight games as the second place Detroit Tigers lost to the Philadelphia Athletics, 2 to 1.

Catcher Ray Mueller walloped two homers, good for six runs, as the Cincinnati Reds thumped the Phillies 8 to 2, while the New York Giants ended a seven-game losing streak by beating the Chicago Cubs, 4 to 3.

The St. Louis Browns snapped their five-game losing streak by defeating the Boston Red Sox, 7 to 1, behind Bob Munerf's three-hit pitching.

Cleveland started a new winning streak by walloping Washington, 7 to 3, as Jim Bagby chalked up his tenth win of the campaign.

BREWERS, TRIBE TO SETTLE ISSUE

By The Associated Press
Milwaukee and Indianapolis bring their first place feud in the American association to a head tonight when they clash at Milwaukee in a double header.

The start of the important series finds Milwaukee with a game and a half advantage over the Indians. Both teams won their games last night, the only ones played.

Milwaukee stopped the third-place Columbus Redbirds, 6 to 1, while Indianapolis routed St. Paul, 8 to 1.

Weather halted the Louisville-Minneapolis contest. Toledo and Kansas City were not scheduled.

Civilian Defense Show To Be Staged at Fairgrounds Aug. 9

Marion will have a civilian defense show at the Marion county fairgrounds on Monday night, Aug. 9.

The show was studied at a meeting at the control center of W. R. Martin, civilian defense coordinator, on Tuesday afternoon. The show, lasting approximately two hours is scheduled, with a civilian defense or-

ganization will handle publicity for the event. W. E. Orourke, L. Earl Ruhlman, Bob Mason and Bob Byrd. Present at last night's meeting to start plans for the program were Mr. Martin, Mr. Orourke, assistant coordinator and commander of the control center, Mr. Ruhlman, chief of air raid wardens; Mr. MacDonald, chief of auxiliary police; C. W. Stafford, representing firemen and auxiliary firemen; Elmer Smith, representing Co. H of the Ohio State Guard; Patrolman Vern Herbert of the state highway patrol; Police Chief William E. Marks, Mr. Mason, Lou Marsh and Mr. Byrd.

To Be Free Show

The show will be free, and a large number of people are expected to attend. The show will be held at the fairgrounds, which are located on the east side of the city. The show will be held at the fairgrounds, which are located on the east side of the city. The show will be held at the fairgrounds, which are located on the east side of the city.

TO MEET WEDNESDAY

A meeting of Mary Harris Arner, W. C. T. U. will be held Wednesday afternoon at 2 o'clock at the home of Mrs. Clara Law-

Council Calls for Report On Service Department Work

Reports of Complaints About Needed Work Listed; Final Parking Meter Payment Is Reported.

A request for Safety-Service Director C. C. Caldwell to make a detailed report at his next meeting of work now in progress or planned later in the summer by the city service department was made by Councilman-at-Large W. G. Slack at last night's semi-monthly meeting of city council.

The request was made after several members of council turned in complaints about the present condition of the city's streets and catch basins.

A motion to this effect was made by Councilman-at-Large Earle C. Johnson and seconded by First Ward Councilman Harold F. Robinson.

Other council action included: Receipt of a report that final payment has been made for Marion's parking meters.

Approval of an ordinance authorizing Safety-Service Director Caldwell to dispose of three trucks and the city's old street sweeper as junk.

Explanation by Councilman Harry Wilhelm and City Auditor Elmer Shaw of the various city funds and what they may be used for.

A complaint by Councilman Slack on the present condition of railroad crossings in the city.

Hearing of a proposal made by county officials to turn back to the city the parking area on East Center street at the south side of the courthouse for restricted parking on Court street and the

NOTICE

To Those Who Suffer with Rheumatism or Arthritis

Beardsley of what you have done to rid yourself of these painful diseases, be not discouraged. Where there's life there's hope. We have many satisfied users in Marion and neighboring counties. Now, if you are one of these sufferers, call or write and one of our representatives will call at your home and explain Hi-Merit Combination Treatment in detail to you without charge or obligation. This is a non-habit forming, inexpensive treatment and in turn may mean to you a renewed joy of living.

HI-MERIT PRODUCTS COMPANY

1424 N. High St., Columbus, Ohio
Our Local Representative
Mr. Oscar Noe, 174 S. Main St., Marion, Ohio

rence of 232 South Vine street, president of the county union. Mrs. E. J. Hollandshead will be in charge of a special program and the speaker will be Rev. J. R. Dallas, pastor of Oakland Evangelical church. Mrs. A. F. Smith will be in charge of the worship service and Mrs. A. L. Wood, county director of music, will be in charge of the music. Mrs. Mildred Douce will contribute a group of readings.

Co. H Drill Set At School Grounds Tonight

The regular drill for Co. H will be held at Harding High school grounds tonight. Bayonet practice, special operations and individual protection instructions will be given by Cpl. Lloyd Turner, Cpl. Albert Ward and Cpl. Ralph Young respectively.

Capt. Carl Ebert stated that seven more enlistments are needed to fill the vacancies left by members who are working on night shifts and those leaving for the service.

An urgent appeal has been issued from headquarters for recruits to strengthen the Ohio State Guard. The appeal was accompanied with the reminder that the guardsmen are the only home military defense.

Lincoln Leads List

Lincoln park has been the case during all but one week since the program opened June 7, topped all playgrounds in the number enrolled with 833. McKinley park, which due to its location and surrounding building construction, approximated 700 in attendance every week according to recreation leaders, had only 424 registrants last week. This was low because of a lack of parking space. Park directors at Garfield signed up 402, The Oakland-Marion Steam Shovel playground attendance hit its peak of the season thus far with 431.

Backstop Repaired

Another noticeable improvement at McKinley park last week was the repair of the backstop on the softball diamond. For the greater part of two years, softball games at that park have been handicapped with temporarily lost balls racing through gaping holes in the backstop. The big backstop at Lincoln park has also been repaired, Dorris said. However, these two instances probably will be all the backstop fixing done for some time, Dorris adds, since no more wire is available at any of the parks and probably can not be acquired from any city or out-of-town concerns.

Attendance Increases

Meeting with Ralph Kelly, Oakland director, Dorris got a line on just what the main cause for the poor registration showing of Oakland was and got busy in devising a remedy for the ill of that playground. He evidently must have succeeded to a considerable degree as the 431 mark of Oakland attests.

Dorris reports the sand-box at the west side playground has been completed and is now open to the public. The sand-box, which was built by the Oakland district, has also been completed and is now open to the public.

Final Meter Payment

During the caucus session Mayor Russell C. Shaw read a letter from the dual parking meter Co. of Oklahoma City, Okla., in which the firm reported receiving a check for \$5,237.50 covering the final payment for purchase of 224 meters. City Auditor Elmer Shaw said the check was mailed to the concern last week. The payment covered the purchase price of 224 meters, rental of 224 meters for one month and rental of 55 other meters for one month.

Payment of the meters is on a rental basis. During the first 12 months the rental for each meter is \$3.50. After that time the rental is \$3.00 per meter each month. At the end of 12 months the city has the option to purchase the meters for an additional \$19.45 or have the installing firm remove them.

The payment completes the contracts on all 326 meters now in operation. Shaw said between \$530 and \$550 a week is being collected from the meters.

At the suggestion of Councilman Wilhelm, Councilman Shaw read a detailed report of the city's financial condition as of June 30. The report shows that \$143,443.75 was deposited in the name of the city of Marion in two of the city's three banks, \$63,954.33 in inactive funds in the National City Bank of Marion and \$79,489.42 in active funds in the Marion County Bank. Shaw said that the inactive funds had remained dormant since 1936 or 1937.

Not Drawing Interest

Councilman Robinson asked whether the inactive funds were bearing interest. Shaw said, "No. According to banking regulations of the state of Ohio a bank can not pay interest on a deposit of this type." Robinson then asked whether the city could be paid out of funds of this type. Shaw again answered in the negative.

During council's caucus meeting in Mayor Shaw's office, the mayor said that he had been contacted by county officials relative to a change in the present parking accommodations for official automobiles at the courthouse. He explained that the county proposed to change its parking zone from the south side of the courthouse on East Center street to Court street and the alley at the east side of the courthouse.

Councilman Johnson said that a similar proposal had been made to him and that he suggested the county remove a three to five-foot section of the esplanade on the north and east sides of the courthouse and then the city would be more likely to be in favor of the change.

The matter was temporarily laid aside pending further discussion with county officials.

Better Complaint

Mrs. Mayme Gordon, city clerk, read to council a petition from James Willoughby of 245 Cherry street in which he stated that his basement has been flooded following almost every rain as a result of street work done in front of his home about five years ago. City Engineer Tom Caters said city service department workers checked sewer around the home for two days last week but were unable to locate any real cause for the periodical flooding. Council President Robert H. Stief referred the matter to the sanitary and sewer committee.

Slack reported a dead tree on Lincoln avenue just north of East Center street in need of attention and Simmons reported a tree on North Prospect street just north of the Rosemary addition is dead and should be removed.

He also suggested that a letter be written to the Universal Cooler Corp. requesting the company's parking lot be sold. He said he had received a number of complaints about this matter.

Robinson said Frederick street had been reported as in need of repair. He said that work had been done on it but no work has been done on it yet.

1,940 at Playgrounds in Week

Turnout Shows Increase of 253 Over Preceding Week; Lincoln Park Total Leads List.

Total registration at Marion's four recreation playgrounds last week was boosted to 1,940 with the addition of a few new activities and a marked upswing in the athletic inclination shown by many park picnickers. Although this figure represented an increase of 253 over the previous week, directors of the city recreation program were still not satisfied with the interest displayed by Marionites in the six-week-old program.

Taking into consideration that practically every day last week was free from the usual down-pours and drizzles, making for near-ideal weather conditions, the 1,940 boys, girls and adults registered was not regarded as an astounding mark. In fact, it was only the third highest registration in the six weeks' life of the program.

Lincoln Leads List

Lincoln park has been the case during all but one week since the program opened June 7, topped all playgrounds in the number enrolled with 833. McKinley park, which due to its location and surrounding building construction, approximated 700 in attendance every week according to recreation leaders, had only 424 registrants last week. This was low because of a lack of parking space. Park directors at Garfield signed up 402, The Oakland-Marion Steam Shovel playground attendance hit its peak of the season thus far with 431.

Backstop Repaired

Another noticeable improvement at McKinley park last week was the repair of the backstop on the softball diamond. For the greater part of two years, softball games at that park have been handicapped with temporarily lost balls racing through gaping holes in the backstop. The big backstop at Lincoln park has also been repaired, Dorris said. However, these two instances probably will be all the backstop fixing done for some time, Dorris adds, since no more wire is available at any of the parks and probably can not be acquired from any city or out-of-town concerns.

Attendance Increases

Meeting with Ralph Kelly, Oakland director, Dorris got a line on just what the main cause for the poor registration showing of Oakland was and got busy in devising a remedy for the ill of that playground. He evidently must have succeeded to a considerable degree as the 431 mark of Oakland attests.

Dorris reports the sand-box at the west side playground has been completed and is now open to the public. The sand-box, which was built by the Oakland district, has also been completed and is now open to the public.

Final Meter Payment

During the caucus session Mayor Russell C. Shaw read a letter from the dual parking meter Co. of Oklahoma City, Okla., in which the firm reported receiving a check for \$5,237.50 covering the final payment for purchase of 224 meters. City Auditor Elmer Shaw said the check was mailed to the concern last week. The payment covered the purchase price of 224 meters, rental of 224 meters for one month and rental of 55 other meters for one month.

Payment of the meters is on a rental basis. During the first 12 months the rental for each meter is \$3.50. After that time the rental is \$3.00 per meter each month. At the end of 12 months the city has the option to purchase the meters for an additional \$19.45 or have the installing firm remove them.

The payment completes the contracts on all 326 meters now in operation. Shaw said between \$530 and \$550 a week is being collected from the meters.

At the suggestion of Councilman Wilhelm, Councilman Shaw read a detailed report of the city's financial condition as of June 30. The report shows that \$143,443.75 was deposited in the name of the city of Marion in two of the city's three banks, \$63,954.33 in inactive funds in the National City Bank of Marion and \$79,489.42 in active funds in the Marion County Bank. Shaw said that the inactive funds had remained dormant since 1936 or 1937.

Not Drawing Interest

Councilman Robinson asked whether the inactive funds were bearing interest. Shaw said, "No. According to banking regulations of the state of Ohio a bank can not pay interest on a deposit of this type." Robinson then asked whether the city could be paid out of funds of this type. Shaw again answered in the negative.

During council's caucus meeting in Mayor Shaw's office, the mayor said that he had been contacted by county officials relative to a change in the present parking accommodations for official automobiles at the courthouse. He explained that the county proposed to change its parking zone from the south side of the courthouse on East Center street to Court street and the alley at the east side of the courthouse.

Councilman Johnson said that a similar proposal had been made to him and that he suggested the county remove a three to five-foot section of the esplanade on the north and east sides of the courthouse and then the city would be more likely to be in favor of the change.

The matter was temporarily laid aside pending further discussion with county officials.

Better Complaint

Mrs. Mayme Gordon, city clerk, read to council a petition from James Willoughby of 245 Cherry street in which he stated that his basement has been flooded following almost every rain as a result of street work done in front of his home about five years ago. City Engineer Tom Caters said city service department workers checked sewer around the home for two days last week but were unable to locate any real cause for the periodical flooding. Council President Robert H. Stief referred the matter to the sanitary and sewer committee.

Slack reported a dead tree on Lincoln avenue just north of East Center street in need of attention and Simmons reported a tree on North Prospect street just north of the Rosemary addition is dead and should be removed.

He also suggested that a letter be written to the Universal Cooler Corp. requesting the company's parking lot be sold. He said he had received a number of complaints about this matter.

Robinson said Frederick street had been reported as in need of repair. He said that work had been done on it but no work has been done on it yet.

BISHOP WALDORF DIES IN NEW YORK

By The Associated Press

ALEXANDRIA, N.Y., July 27.—Bishop Ernest Lynn Waldorf, head of the Chicago area of the Methodist church, died today in the Noble Foundation hospital where he had been undergoing treatment since last Friday for liver ailments and complications.

One of his sons, Lynn Waldorf, is head football coach at Northwestern university.

Bishop Waldorf's jurisdiction for the Methodist church included the state of Illinois and Scandinavian churches affiliated with the Methodists in the eastern half of the United States.

He was born in South Valley, N.Y., May 14, 1876, and spent much of his boyhood in Buffalo and Syracuse, graduating from Syracuse university in 1900, and receiving his doctor of divinity degree from Syracuse in 1913. He served as pastor of churches in small towns, Syracuse and Cleveland, O., before becoming a bishop.

He married Miss Flora Janette Irish, Skaneateles, N.Y., in 1902 and they had five children; Lynn, Mrs. Albert B. Wagner, Paul D., John D. and Robert J. Waldorf.

The recreation supervisor reports another addition to the list of equipment at McKinley park with the installation of high jumping and broad jumping pits. At latest reports from the pleasant and popular south side park, many children and a few adults are trying their hand at leaping the high jump barrier or hurdling the sawdust pit. McKinley has been the first playground to receive actual track equipment although at Lincoln park, Dorris says, boys and girls have been engaging in jumping and other stunts in the large sand-box.

Backstop Repaired

Another noticeable improvement at McKinley park last week was the repair of the backstop on the softball diamond. For the greater part of two years, softball games at that park have been handicapped with temporarily lost balls racing through gaping holes in the backstop. The big backstop at Lincoln park has also been repaired, Dorris said. However, these two instances probably will be all the backstop fixing done for some time, Dorris adds, since no more wire is available at any of the parks and probably can not be acquired from any city or out-of-town concerns.

Attendance Increases

Meeting with Ralph Kelly, Oakland director, Dorris got a line on just what the main cause for the poor registration showing of Oakland was and got busy in devising a remedy for the ill of that playground. He evidently must have succeeded to a considerable degree as the 431 mark of Oakland attests.

Dorris reports the sand-box at the west side playground has been completed and is now open to the public. The sand-box, which was built by the Oakland district, has also been completed and is now open to the public.

Final Meter Payment

During the caucus session Mayor Russell C. Shaw read a letter from the dual parking meter Co. of Oklahoma City, Okla., in which the firm reported receiving a check for \$5,237.50 covering the final payment for purchase of 224 meters. City Auditor Elmer Shaw said the check was mailed to the concern last week. Robinson said Frederick street had been reported as in need of repair. He said that work had been done on it but no work has been done on it yet.

REGISTRATION SET AT DAY NURSERY TOMORROW

Mothers May Sign Up Wednesday Night To Arrange for Service.

A well balanced and varied program moves up the day's schedule at the day nursery at 138 Hill street where employed mothers may leave their children, knowing they are in the hands of competent and efficient supervisors.

Children arriving as early as 8 a. m. are put to bed for a good nap upon arrival and at 1:30 a. m. are served a breakfast. They join other children upon their arrival for a play period of one and one-half hours and this is followed by a rest period. Upon waking the children are given a glass of fruit juice and play is continued until lunch time when the women of the Union donut center for service men assist the supervisors.

Lunch is followed by play and a rest period is scheduled from 2 to 4 p. m. A play period follows until the children are called for their children in the nursery may register them Wednesday evening from 7:30 until 10:30 p. m. at the nursery. Mrs. Rudolph Schetz will be in charge of the registration tomorrow night.

MAN GIVEN JAIL TERM, FINE FOR MISCONDUCT

Two Charges of Disorderly Conduct Bring Heavy Penalty.

Dave Joffe, 34, of 131 DeWolfe court was sentenced to 30 days in the Columbus workhouse and fined \$110 and costs in municipal court Monday after he pleaded guilty to a double charge of disorderly conduct and resisting the arresting officers. He was arrested by city police Saturday night at the boarding house where he lives after other tenants complained of his conducting himself in a disorderly manner and causing a disturbance.

Charges against his mother, Mrs. Winifred Joffe, 74, of interfering with the patrolman who arrested her son were dismissed by Judge Hiley.

Judge Hiley said he made the penalty against Joffe because he had been arrested numerous times by Marion police and police of other cities on various charges.

Badoglio Called Turn on Duce Early; Finds He Was Right

Mark Barron Associated Press Staff Writer Now on Leave of Absence While Serving in the United States Army

By MARK BARRON

CAMP CROWDER, Mo., July 27.—The historic walls of Rome always have been plastered with proclamations, the Italian political leaders having a penchant for grubby publicizing their edicts. Today the new Italian prime minister, Marshal Pietro Badoglio, could, if he chose to, spread upon those fading walls the admonition:

"I told you so."

It was just a little over 20 years ago that Marshal Badoglio called the turn on Mussolini, whom he has just succeeded as chief of the Italian state. Pleading with his close personal friend, King Victor Emmanuel, in 1932 as the march on Rome by the Fascist mobs began, Marshal Badoglio asked permission to go out and stop with loyal troops the rantings of Mussolini, whom he called "a loud-mouthed labor agitator." King Victor would not permit him to do this, so Badoglio could truthfully fling his "I told you so" across those battered walls that ramble over the hills of Rome.

Handbills Change Often

These are walls that often have had their handbills changed as the heads and policies of the Italian government changed. In 1935 the frequent notices of new taxes being imposed by the black shirt bureaucracy came down from the walls and in their place were painted imaginatively garish maps of the new Roman empire, maps which hinted that the coming Fascist "empire" would include Ethiopia and much more of Africa and "zones of influence" in Brazil and other South American states.

That was how the walls looked when I saw them in 1935 when I was in Rome, arguing with Achilles Starace and other Fascist party officials in a vain effort to win permission to accompany the Italian armies on their invasion of Ethiopia. This was not immediately forthcoming so I went into the war zone first with the more friendly Ethiopians, later moving over to the Italian side.

Badoglio had been strongly against attacking the Ethiopians and although he wouldn't confirm this, he didn't deny it later when I met him in Massawa on the coastal hell of Eritrea.

He is a quiet, spoken man for an explosive race like the Italian. And although his tone is strong and commanding, his choice of words shows he does considerable reflection upon his words before he speaks.

Left at Home

So strong was his against carrying out the war with Ethiopia, that although he was regarded as one of the seven royal great military minds in the world then, he was at first left at home by Mussolini and the army was put in command of Marshal De Bono, the goat-bearded officer whose chief claim to fame was in organizing Fascist police systems. After De Bono's narrow escape from defeat by the Ethiopians at Makale, Badoglio was hurriedly sent back to command of the Italian forces.

At the time of his appointment as a strong friend of Badoglio and also has often been called down by Mussolini for his anti-Fascist leanings, came into my cabin on
